

## Technical Data Sheet

# TC50 Plus

### Purpose:

TC50 Plus is a multi-purpose spray incorporating different characteristics of which there are rust-loosener, lubricant, contact spray, cleaner and corrosion protection in one.

### Description and properties:

#### *TC50 Plus*

- Loosens rust to metal bonds and free stuck, frozen or rusted metal parts.
- Lubricates, stop squeaks and remains on moving parts.
- Avoids leak currents, protects electrical and electronic components of malfunctions.
- Cleans and removes sticky oil-, grease- and resin residues.
- It protects metals parts against moisture and other corrosive elements.
- On short term it is rubber friendly and is non-problematic for most of existing plastic materials.
- Silicon free and do not resinify.

### Application:

Apply TC50 Plus multi-purpose spray thinly and allow to air. Carefully remove rusty connections. If the connections are heavy, repeat application. Spray blank metal surfaces homogeneously to protect against moisture and rust.

### Technical Data:

Appearance:	liquid
Colour:	yellow-brown
Odor:	characteristic, typical
Density @ 15°C:	0,850 g/ml
Viscosity, kin. 40°C:	5 mm <sup>2</sup> /s
Application temperature range:	-30 °C up to +100 °C

### Note:

Please observe the instructions on the packaging label and in the safety data sheet. To avoid thermal decomposition, do not overheat by spraying on hot plates or other hot materials. Build-up of dangerous/toxic fumes possible in cases of fire/high temperature. May be fatal if swallowed and enters airways. May cause an allergic skin reaction. Causes serious eye irritation. Always handle this product with care and follow the instruction for use to avoid injuries. Wear protective gear like eye wear and gloves.
